

Live a new experience with your TV!

Connect the **N160H** to your TV and instantly access all the free standard and HD DVB-T channels!

Take control of your TV by recording your favourite TV shows on external USB flash drives or mobile hard disks. Pause them live anytime thanks to the "Timeshift" function.

With the N160H, it is so **easy to share** your multimedia files with your family and friends **without the use of a computer**. Plug your USB flash drives or mobile hard disks into the N160H USB port then instantly access your multimedia files!

The **N160H** is a complete multimedia player as it offers Full HD decoding (1080p) of your videos with support of main codecs.

Thanks to its sober design and metal casing, the Movie Cube N160H is the most discreet touch of technology in your living-room.

Front buttons for easy access to the N160H even when your remote runs out of batteries

A simple and intuitive main menu to get the most of the N160H functions

Back connections

Easily connect an USB drive, digital camera, external HDD to view your files

Watch & record your favorite programs from DVB-T HD TV

Experience the 5.1 surround sound experience

Enjoy the most optimal digital image quality depending on your TV connectors: HDMI, Scart or AV out

Non-contractual pictures
