

  **Movie Cube-R series— Info HDD Capacity**

Dear Customer,

Congratulations on your purchase and we hope that you will enjoy all the features of the Movie Cube R series.

Please be aware that the total HDD capacity is bigger than the capacity you will see in Windows Explorer or MAC.

You will only see the capacity dedicated to the storage of your media ie photos, music, video & other files transferred from your PC or MAC into the Movie Cube R series.

Please find below the capacity which will be visible on your PC compared to the capacity of the Movie Cube R series you have bought:

EMTEC Movie Cube-R series (firmware v2.0.7UP)	Visible Capacity on PC or MAC
250 GB	140 GB max. (2 parts of 70 GB max.)
500 GB	280 GB max. (2 parts of 140 GB max.)
750 GB	420 GB max. (2 parts of 210 GB max.)
1 TB	560 GB max. (2 parts of 280 GB max.)

You will not see all the remaining “hidden” capacity. This is necessary and is dedicated to the recording & time shift functionality from an external tuner eg TV, video recorder, DVD player etc. There is also capacity dedicated to run/operate the system.
