## Universal remote control with colored LCD screen

# H510 icon

LCD remote control with icons - 10in1

### > Key features

- Remote control including up to 10 modes, to replace 10 audiovideo appliances.
- Comprehensive library includes codes for most TV, VCR, DVD, SAT, AMP, DVBT etc.
- Easy to set up : the colored LCD screen helps the user to apply certain functions, such as :
  - channel selection, with the display of their logo (very convenient for the cable or the satellite)
  - the setting and the display of favorite channels
  - a unique system of child welfare, named "Kid Safe", which includes the setting of a group of channels dedicated to the children, and, in the same time, the impossible access to another channel, except by entering a pin code.
  - the setting of each A/V source code (direct enter, brand code search, auto search).
- The possibility to allocate any mode key to any A/V appliance.
- Learn function offers the possibility to add new functions from a previous remote or position favorite functions on the keypad.

### > Benefits

Specific functions

- Direct access to all main functions of all your A/V appliances through one single remote.
- Possibility to control combo devices (i.e.: TV/VCR, TV/DVD, DVD/VCR etc.)
- MACRO keys allow to set up and to stock groups of commands.
- The "quick power" function allows to turn on quickly all your A/V appliances, one by one.
- A sleep timer is available for each A/V appliance.
- It is possible to adjust the backlighting delay of the remote control.
- The punch through function allows to allocate the volume / mute, Play, Stop, Forward... keys to any mode.

### > Technical data

- Batteries : 4 new LRO3 AAA
