User's Manual

(v1.0)

TABLE OF CONTENTS

SAFETY PRECAUTIONS

CAUTIONS:		
The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to "dangerous voltage" and to prevent from a risk of electric shock.	Warning: To reduce the risk of electric shock, don't open the cabinet. Refer servicing to qualified personnel only.	The exclamation point within an equilateral triangle is intended to alert the user to important operating and maintenance (servicing).

WARNING: Do not use this STB where contact with or immersion in water is a possibility. Do not use near flower vase, washbowls, kitchen sinks, laundry tubs, swimming pools, etc.
WARNING: Do not put the candle or lamp stand on the cabinet; otherwise, there is the danger of fire.
WARNING: The unit should be connected to a power supply only of the type described in the operating instructions or as marked on the unit. If you are not sure of the type of power supply (for example, 120 or 230 V) to your home, consult your local dealer or local power company.
WARNING: This product installs diodes. Do not open the cabinet or touch any parts in the inner mechanism. Consult your local dealer for technical service if the opening is required.
Note: To ensure proper use of this product, please read this User manual carefully and retain for further reference.
Note: This product installs diodes. Do not open the cabinet to avoid the unit direct exposure to radiation.
Unit Cleaning: After the unit power is turned off, you can clean the cabinet, panel and remote control with a soft cloth lightly moistened with a mild detergent solution.
Attachments: Never add any attachments and/or equipment without the manufacturer consent; as such additions may result in the risk of fire, electric shock, or other personal injury.
Power-Cord Protection: Place the power-supply cord out of the way, where it will not be walked on. Please take special attentions to cords at plugs, convenience receptacles, and the point where they exit from the unit.
Object and Liquid Entry: Never put objects of any kind into this STB through openings, as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill any liquid on the STB.
Parts Replacement: When the unit parts need to be replaced, user should make sure the service technician use the replacement parts specified by the manufacturer or having the same characteristics as the original part. Unauthorized replacement may put the unit In the risk of fire, electric shock or other hazards.
Safety Check: After all the maintenances and repairs are done, user is required to request the service technician to conduct the overall safety check to ensure the machine is In the proper condition.
Locating: Slots and openings in the cabinet are provided for ventilation to protect it from overheating. Do not block these openings or allow them to be blocked by placing the STB on a bed, sofa, or other similar surface, nor should it be placed over a radiator or heat register.

Preface

Thank you for purchasing the new N150H!
Please read this manual thoroughly before any use and keep it well for future reference.

15. Packing list

PART	QUANTITY
N150H player	1
Power adapter	1
Remote control	1
CD with user manuals	1

16. Troubleshooting

If you encounter problems when using this product, please check the following points before requesting service.

Problem	Solution
No power on	Confirm that you have an appropriate power source. Check if all the connections between the wall outlet and power supply, and the power supply and the player are correct. Switch the power button in front of the player to turn on the power.
Buttons do not work	To completely reset the player, unplug the AC cord from the AC outlet for 5-10 seconds.
The player does not respond to the remote control	Point the remote control towards the remote receiver. Make sure the signal from the remote control to the receiver on the player is not blocked by solid objects. Reduce the distance to the media player. Replace the batteries in the remote control. Re-insert the batteries with their polarities (+/- signs) as indicated.
No picture on screen	Check if the TV is switched on. Select the appropriate video input on your TV.
No sound or distorted sound	Adjust the volume. Check that the audio cables are connected correctly. Select the audio output supported by your TV.

WARNING
Under no circumstances should you try to repair the system yourself, as this will invalidate the warranty. Do not open the system as there is a risk of electric shock.
