

USE PROJECT is the perfect illustration of EMTEC's vow to innovate by rethinking the usage of common technology products.

For this first edition, Cedric Ragot delivers his vision of mobile accessories.

USEproject●

When wireless sound does not mean compromising quality...

Messy wires and cables always get in the way when listening to music... now there is a solution!

- All technological components hidden into a small capsule freeing up space for optimized listening experience with 9.2mm drivers (aptX certified) and charming design

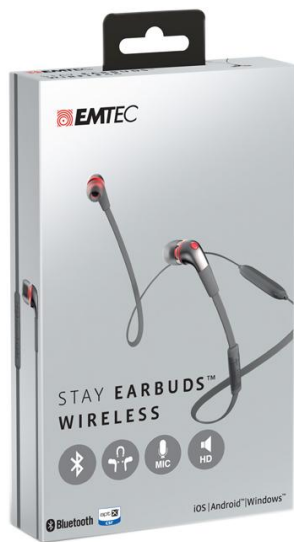

- Perfect noise isolation with HD audio speakers for a punchy sound quality
- In-line mic and 3-buttons universal remote for iOS, Android and Windows devices
- Up to 5 hours of music/talk time
- Anti-tangle flat cable to spare you some troubles

Tip: built-in magnetized surfaces allow the earbuds to attach to one another so they stay gently around your neck

- Stylish, elegant and sleek packaging design coherent with the products and in line with all of the "Use Project" range
- Premium quality packaging printed on smooth surface chromolux paper to add the perfect finishing touch to the product
- Pictograms clearly presenting the main product features and benefits
